## SKILLS

---

- **CI/CD & Pipelines:** Jenkins, GitLab CI/CD, GitHub Actions
- **Cloud (AWS):** IAM, EC2, VPC, S3, CloudWatch, SSM
- **Containerization & Orchestration:** Docker, Docker Compose, Kubernetes, Harbor
- **Monitoring & Logging:** Prometheus, Grafana, Loki, PromQL, ELK Stack
- **Security & Secrets Management:** HashiCorp Vault
- **Infrastructure as Code:** Shell Scripting, Linux Automation
- **Programming & Web:** HTML, CSS, JavaScript, Java
- **Databases:** DBMS, SQL
- **Version Control:** Git, GitHub, GitLab, Bitbucket
- **Tools:** Lens, Visual Studio Code, Netlify, IntelliJ, PyCharm

## CERTIFICATIONS

---

- **AWS Cloud** – Amazon Web Services
- **Internship Completion Certificate** – DevOps Engineer, Paytm *Jul 2025 – Jan 2026*

## EXPERIENCE

---

- **DevOps Engineer** Jan 2026 – Present  
*Paytm* *Noida, UP*
  - Managed DevOps operations for multiple projects across **On-Premise infrastructure and AWS Cloud**, including the **METAC** project deployed on AWS
  - Managed cloud infrastructure using **AWS services (EC2, API Gateway, CloudWatch)** to support production microservices
  - Operated and troubleshooted **Kubernetes clusters** including **Pods, deployments, Helm charts, ingress configuration, and pod log debugging**
  - Built and maintained **Jenkins CI/CD pipelines** for automated build and deployment of containerized services using **Docker**
  - Managed centralized logging using **Kibana (ELK Stack)** dashboards and handled secure secrets management using **HashiCorp Vault**
- **DevOps Engineer Intern** Jul 2025 – Jan 2026  
*Paytm* *Noida, UP*
  - Supported production DevOps operations for many projects including the **METAC** project
  - Assisted in managing **Jenkins pipelines, Docker containers, and Kubernetes deployments** for microservices
  - Monitored applications and logs using **Kibana and AWS CloudWatch** to diagnose and resolve production issues
  - Supported infrastructure tasks across **AWS services (EC2, S3, IAM)** and internal on-premise environments

## PROJECTS

---

- **GoToKart – E-Commerce Platform (Live) | (Docs)**
  - **Tech:** Spring Boot, MariaDB, JavaScript, Nginx, Docker Compose, AWS EC2, GitHub Actions, AWS SSM
  - Developed a full-stack **e-commerce platform** supporting product catalog, cart management, and order processing using **Spring Boot, MariaDB, and JavaScript**. Designed backend services and APIs to handle product data, user interactions, and transaction workflows.
  - Implemented production-style deployment on **AWS EC2** using **Docker Compose** with **Nginx reverse proxy** managing application routing. Built automated CI/CD pipelines using **GitHub Actions** and **AWS SSM** enabling zero-touch container deployment and service updates.

## EDUCATION

---

- **B.Tech in Computer Science** 2021 – 2025  
*Galgotias College of Engineering and Technology, Greater Noida*
- **XII (CBSE)** 2021  
*R.S. Convent Sainik School, Varanasi*
